Objective

Motivated and skilled Information Technology undergraduate with strong proficiency in full-stack development. Seeking a Software Engineer Intern role to apply my hands-on experience in real-world applications, learn under industry experts, and contribute meaningfully to high-impact projects.

Technical Skills

Languages: JavaScript, Java, C, C++
Frontend: React.js, HTML5, CSS3
Backend: Node.js, Express.js
Database: MongoDB
Tools: Git, GitHub, Postman , web Socket
Concepts: OOP, REST APIs

Projects

- Interview AI Platform

Tech Stack: Node.js, React, MongoDB, Socket.io, Gemini, DeepSeek
- Created an AI-powered interview assistant that conducts mock technical interviews.
- Integrated Gemini and DeepSeek for dynamic question generation and intelligent feedback.
- Used Socket.io for real-time communication between AI and user.
- Managed data flow through RESTful APIs and MongoDB.
- Project Link: https://interview-aifrontend.vercel.app/

- Uber Clone

Tech Stack: React, Node.js, MongoDB, Socket.io, Google Maps
- Designed and developed a real-time ride-booking platform with driver-rider role support.
- Integrated live location tracking with Google Maps.

- Implemented Socket.io for real-time updates between users and drivers.
- Built a responsive frontend with React and backend using Express and MongoDB.

Education

Bachelor of Technology in Information Technology
Indore Institute of Science and Technology
Expected Graduation: 2027

Soft Skills

• Strong problem-solving and debugging ability
• Quick learner, highly collaborative in team settings

Interests

Remote development, AI integrations, System architecture and scalability
